Summary

Front-End Developer skilled in building modern, responsive web applications using Next.js, React.js, Supabase,Vite, Tailwind CSS, Redux Toolkit, Framer Motion, GSAP, and shadcn/ui. Experienced delivering clean, accessible UIs across projects such as Watchly, E-shop, Trackify, and a personal portfolio. Meta Front-End Developer certified with strong knowledge of UI/UX principles, API integration, and state management — focused on scalable front-end solutions and smooth user experiences.

WORK EXPERINCE

Frontend Developer - kreativestorm   *Jul 2024 - Aug 2024*
Remote

- Developed an online shopping website and Jumping Man game using HTML, CSS, and JavaScript, improving hands-on problem-solving and UI implementation skills.
- Fixed front-end bugs and improved UI responsiveness across mobile and desktop.
- Collaborated in a real-world development environment, following clean code practices and version control
  using Git & GitHub.

Personal Projects   *Jan 2023 - present*

Trackify – Personal Finance Dashboard

- Built a full-stack personal finance management app using **React.js**, **Next.js**, **Tailwind CSS**, **Framer Motion, Redux Toolkit, and Supabase** with secure authentication and real-time data storage.
- Designed a clean, responsive dashboard UI for expense tracking and analytics.
- Applied smooth UI animations and reusable component patterns for maintainability and scalability.

Watchly – Modern Movie Web Application

- Designed and developed a responsive movie discovery platform using **React.js, Tailwind CSS, Framer Motion, and Redux Toolkit** with Dark Mode, smooth animations, and dynamic movie detail pages.
- Integrated watchlist functionality and interactive modal effects to enhance user engagement.
- Embedded trailers and implemented theme-adaptive UI for improved accessibility and user comfort.

Portfolio – Personal Developer Website

- Built a responsive personal portfolio website using **React.js, Vite, Tailwind CSS, and Framer Motion** with smooth animations and a clean UI design. Integrated Framer Motion animations for better
- interactivity and engagement. Created a theme-adaptive layout to ensure a consistent user experience.
