Summary

Frontend Developer skilled in React.js, Next.js, Tailwind CSS, and modern web technologies. I build clean, responsive, and high-performing user interfaces with a strong focus on design, usability, and performance. With a background in Mechatronics Engineering , I bring a creative and analytical mindset to problem-solving. I have earned multiple Coursera certifications from the Meta Front-End Developer Professional Certificate program, covering HTML, CSS, JavaScript, Advanced React, and UI/UX design principles. I'm currently completing the full certificate and open to new opportunities to grow and contribute to innovative teams.

WORK EXPERINCE

Frontend Developer - kreativestorm   *Jul 2024 - Aug 2024*
Remote

- Developed an online shopping website and Jumping Man game using HTML, CSS, and JavaScript, improving hands-on problem-solving and UI implementation skills.
- Fixed front-end bugs and improved UI responsiveness across mobile and desktop.
- Collaborated in a real-world development environment, following clean code practices and version control using Git & GitHub.

Personal Projects   *Jan 2023 - present*

Trackify – Personal Finance Dashboard

- Built a full-stack personal finance management app using **React.js**, **Next.js**, **Tailwind CSS**, **Framer Motion, Redux Toolkit, and Supabase** with secure authentication and real-time data storage.
- Designed a clean, responsive dashboard UI for expense tracking and analytics.
- Applied smooth UI animations and reusable component patterns for maintainability and scalability.

Watchly – Modern Movie Web Application

- Designed and developed a responsive movie discovery platform using **React.js, Tailwind CSS, Framer Motion, and Redux Toolkit** with Dark Mode, smooth animations, and dynamic movie detail pages.
- Integrated watchlist functionality and interactive modal effects to enhance user engagement.
- Embedded trailers and implemented theme-adaptive UI for improved accessibility and user comfort.

Portfolio – Personal Developer Website

- Built a responsive personal portfolio website using **React.js, Vite, Tailwind CSS, and Framer Motion** with smooth animations and a clean UI design.
- Integrated Framer Motion animations for better interactivity and engagement.
- Created a theme-adaptive layout to ensure a consistent user experience.
